

**Pennsylvania Department of Health
2022-2023 Annual School Immunization Law Report
(SILR) Instructional Packet**

**Instructions for Annual School Immunization Law Report
(Reference and Screen Shots 2022-2023)**

I. Introduction

Thank you for completing the annual School Immunization Law Report (SILR). This guide has been developed to help you with completing the report. The SILR is entered online.

- Include all **students currently enrolled in kindergarten, 7th and 12th grades and report homeschooled students separately. Homeschooled students ungraded should be reported for the grade they would normally be attending, based on their age in kindergarten, 7th and 12th grades.**

II. Grades reported

For all questions, include all **current students enrolled only in kindergarten and homeschool kindergarten, seventh and homeschool seventh, and twelfth and homeschool twelfth grades.**

- Enter your SILR online from **December 1 through December 31**, of the reporting year at <http://SILR.health.pa.gov>
- Do NOT include information on pre-school or pre-k students in the responses.
- Please review and validate the online information prior to submitting the SILR. Once you click Submit, you are unable to change the information. If a mistake was made, call the Division of Immunizations (DOI), 717-787-5681.
- Once you submit your information, make a copy of your report.
- Do not leave any blocks blank. Please place a zero (0) in any blank area, as necessary.
- You will not be able to advance in the online SILR unless entry is made in all fields.
- Preschool/daycare settings with kindergarten are required to report. Those without kindergarten but have an AUN are to complete the exclusion instructions.

III. Ungraded class

A student who attends an ungraded class and is 12 years of age will need one dose of meningococcal conjugate vaccine (MCV) and one dose of tetanus, diphtheria, acellular pertussis (Tdap) vaccine. A student who attends an ungraded class, will turn 18 years old during that school year and has not received a previous dose of MCV at age 16 or older, will need a dose of MCV.

IV. Exclusion from reporting:

- Alternative schools do not need to report, as long as the home school district is completing the SILR and counting those students in their enrollment and maintaining their records.
- The alternative school will need to submit its exclusion reason online in the beginning of the SILR.

Other exclusion reasons:

- No Student enrollment.
- School is closed.

Instructions for Annual School Immunization Law Report (Reference and Screen Shots 2022-2023)

- Students are enrolled at home school district.
- There is no Kindergarten, no seventh grade and no twelfth grade.
 - Is the entity a preschool/daycare?

V. Access to SILR:

To access the SILR online:

- Go to <http://SILR.health.pa.gov>

Reports must be entered online **December 1 through December 31**, of the reporting year. The report is only open for input December 1st and closes December 31st.

See the following instructions for online registration. Keep a copy of your report. Follow the Step-by-Step General Instructions on page 22 for entering your school report.

VI. Online Registration Information

This information can be accessed in the blue shaded area.

The screenshot shows the Pennsylvania Department of Health's School Immunization Law Report (SILR) registration interface. The page is titled "School Immunization Law Report (SILR)" and includes a version number "v3.2.0" and the date "Monday, July 16, 2018". The main content area is divided into three sections:

- 1. Please enter your school(s) AUN and school/branch number. When entering multiple schools, use one registration for all schools.** This section contains two input fields: "AUN" (with a placeholder "(123456789)" and "Required Field") and "School/branch" (with a placeholder "(1234)"). There are "Add >" and "< Remove" buttons between these fields and a larger "Selected Schools (Must have at least one school):" box to the right.
- 2. User Registration (All fields are required):** This section contains several input fields: "First name:", "Last name:", "Job title:", "Phone number:", "Email address:", "Username:", "Password:", and "Confirm password:". Below these fields is a note: "Please note the following: Passwords are case sensitive; must be at least 8 characters long and no more than 15 characters; must contain 3 out of the following 4: (1) CAPITAL LETTER, (2) lower case letter, (3) special character, (4) number; cannot be the same as your username, first name, last name, or be the same as any of the previous passwords you used; expire after 60 days."
- 3. Register:** This section contains "Register" and "Cancel" buttons.

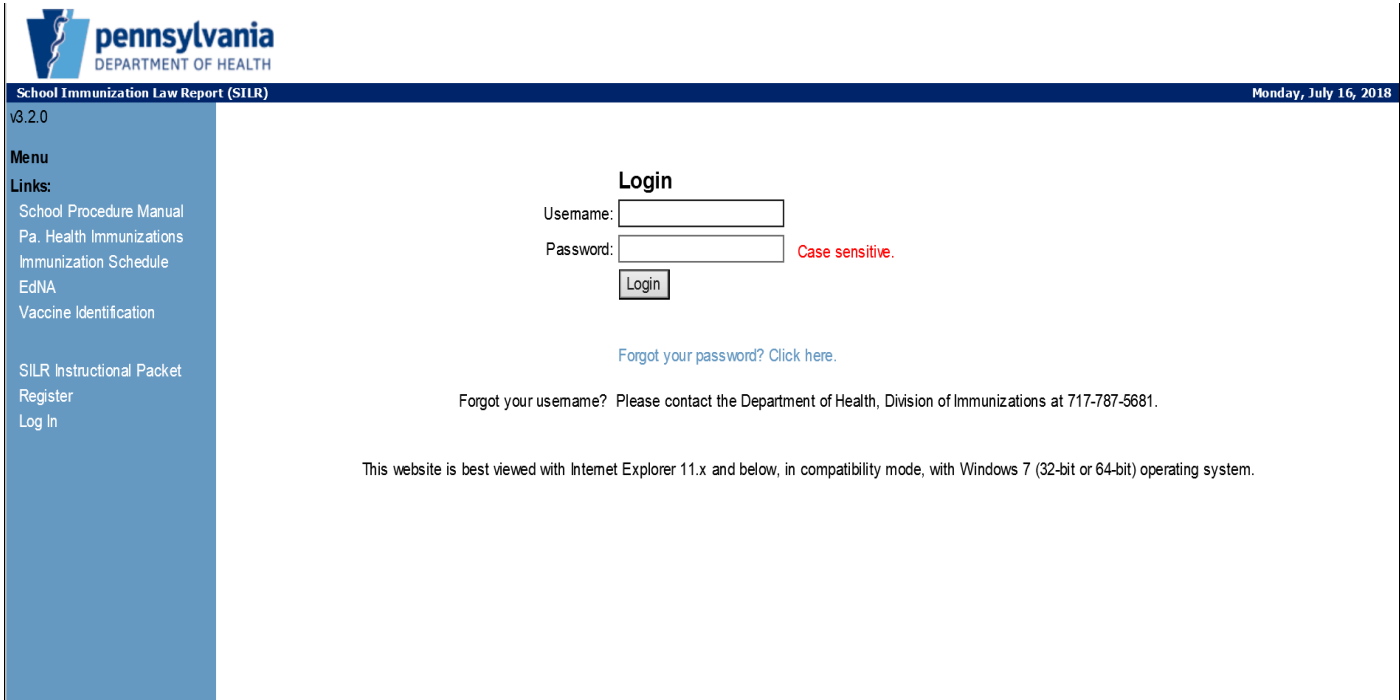

A footer note states: "Note: If you are responsible for entering data for more than one school, please select multiple schools and only register once. Changes to your account (including adding more schools) may always be completed at a later time, by first logging in and then clicking the My Account link."

To register:

- Enter the data online at <http://SILR.health.pa.gov>
- **DO NOT re-register.** This is for first time users only.
- Click Register link on menu at left side of screen.
- Enter school district's nine-digit Administrative Unit Number (AUN) and four-digit school/branch number (found above your school's address on the report that was sent to the school). Do not combine two schools together onto one report.
- Click on the Add button to add school to the selected schools list. (If you have more than one school, type in that AUN as well and click Add until you get all your schools listed).
- Complete all fields under user registration.
- Usernames and passwords cannot be less than 8 characters each. Keep username and password for future use.
- Click Register button.
- Click Ok when registration is complete.
- Click Submit. Follow steps to Add Report.

Submit exclusion:

The screenshot shows the Pennsylvania Department of Health's School Immunization Law Report (SILR) interface. The page title is "School Immunization Law Report (SILR)" and the date is "Monday, July 23, 2018". The user is logged in as "Anurse". The page displays "Report Details" for school "123456789-1234 - One Great MS". The "School year beginning" is set to "2018". A dropdown menu for "No Student Enrollment" is selected. Below it, the question "Is this entity a preschool/daycare?" has a "Yes" radio button selected. At the bottom of the form, there are two buttons: "Submit exclusion" and "Cancel". A red arrow points to the "Submit exclusion" button.

Print copy of exclusion:

- Select Printable copy.

This screenshot is identical to the previous one, but the "Submit exclusion" button has been replaced by a "Printable copy" button. A red arrow points to the "Printable copy" button. Additionally, a red message "School was successfully excluded." is visible above the button.

- Select Print or Cancel.
- After printing a copy of your report, click on the Close printable copy button

**Instructions for Annual School Immunization Law Report
(Reference and Screen Shots 2022-2023)**

Active grades:

- Select the active grades within the school you are reporting;
- Check the box if you are reporting: kindergarten, seventh grade and/or twelfth grade. If multiple grades are within the school you are reporting check all that apply.

Enter the total number of students enrolled in each listed grade:

- (Column A) total number of students enrolled;
- (Column B) number of students who are medical exempt;
- (Column C) number of students who are religious exempt;
- (Column D) number of students who are philosophical/strong moral or ethical conviction exempt;
- (Column E) number of students who are medically up to date with vaccines with a medical plan to complete the series of vaccines. These children are attending school until they complete the required immunizations. McKinney Vento students would be included in this column. Please make sure those listed as homeless are provided help in obtaining vaccines as soon as possible.
- (Column F) total number of students denied admission/attendance and are currently not attending this school due to exclusion.
- (Column G) total number of students Non-compliant and attending. These are children who are not up to date with immunizations but are permitted to attend school by the schools administration.

Enter the number of students in kindergarten and seventh grade who have the number of doses indicated of the specific antigen or have had the disease. Then enter the number of students who are homeschooled kindergarten, homeschooled 7th grade and homeschooled 12th grade. By using the Tab button, you can forward the space for reporting to the next antigen.

Instructions for Annual School Immunization Law Report (Reference and Screen Shots 2022-2023)

- Enter the specific antigens in each of the listed columns.
- **Hover above each heading for detailed explanations of the category.**
- Click on the heading to have readable explanations and “x” out when reading is completed.
- Answer the question. Was this report approved by a medical professional? (i.e., nurse, school nurse, RN, CSN, LPN, CRNP, PA, DO or MD). (YES)
- If a medical professional (i.e., Nurse, School Nurse, RN, CSN, LPN, CRNP, PA, DO or MD) approved the numbers or gave anyone else the numbers to input into the system; you Click the YES, button.
- Answer the question. Is the medical professional the same person as the submitter? (YES)
- If the answer is NO to the two previous questions the boxes will remain blank.
- Click on Run validation checks.
- If you indicated you are not a medical professional, a pop up box will appear, are you sure you are not a medical professional? (i.e., nurse, school nurse, RN, CSN, LPN, CRNP, PA, DO or MD). Click Ok to continue. Otherwise, click Cancel to return to the form.
- If the numbers are not correct per total students, a notification at the top of the page in red will identify which item is in need of correction and the boxes will be highlighted.
- Click validate

Instructions for Annual School Immunization Law Report (Reference and Screen Shots 2022-2023)

To search for previous reports:

The screenshot shows the Pennsylvania Department of Health School Immunization Law Report (SILR) interface. The header includes the Pennsylvania Department of Health logo and the text "School Immunization Law Report (SILR)" on the left, and "Monday, July 23, 2018" on the right. Below the header is a "Report Search" section. A yellow banner contains "Search tips:" followed by two paragraphs of text. The first paragraph states: "All school nurses have the ability to get to their OWN assigned school's data, including past year's data. Schools are assigned to nurses either during the registration process or by clicking the 'My Account' button and assigning schools. If you have trouble getting to your data, don't put in any search criteria, simply click the 'Search' button instead." The second paragraph states: "If searching by School name, it must be typed exactly as it exists in this system, in order to yield search results. If you don't know how the name exists in this system, then don't filter your search by School name." Below the tips is a "Search criteria:" form with the following fields: Administrative Unit Number (AUN) (9 digits), School/branch number (4 digits), School name, School type (dropdown), School district (dropdown), County (dropdown), Intermediate Unit (IU) (dropdown), and Report year (dropdown). At the bottom of the form are "Search", "Reset", and "Cancel" buttons. On the left side of the interface is a blue sidebar with a "Menu" section containing "Add Report" and "Search Reports", and a "Links" section containing "School Procedure Manual", "Pa. Health Immunizations Immunization Schedule", "EdNA", "Vaccine Identification", "SILR Instructional Packet", "My Account", and "Log Out".

- All school nurses have the ability to access their assigned school's data.
- You may access results from the schools identified under your user ID.
- You may access data from past years.
- Click on the My Account button to access assigned schools.
- Click search reports
- If searching by school name, **type it exactly** as it exists in the system or:
 - Enter: AUN.
 - Enter: Branch.
 - Enter: Year.
 - Click on Search button.

**Instructions for Annual School Immunization Law Report
(Reference and Screen Shots 2022-2023)**

School Exemptions:

Annually, the DOH is required to report school vaccination coverage levels to the Centers for Disease Control and Prevention (CDC). One category required is the total number of medical, religious and philosophical exemptions. Below are the definitions.

Medical exemption. Children are exempt from immunization if a physician or physician's designee provides a written statement that immunization may be detrimental to the health of the child.

Religious exemption. Children are exempt from immunization if the parent, guardian or emancipated child objects in writing to the immunization based on contradiction to their religious beliefs.

Philosophical/Strong Moral Ethical Conviction exemption. Children are exempt from immunization if the parent or guardian or emancipated child objects in writing to the immunization based on personal beliefs.

SILR Questions – General Information:

- Question 1: Is this survey required for homeschool children?**
Yes, homeschooled children should be counted in the school in which they would attend.
- Question 2: If I complete the SILR online, do I still need to mail in a copy to the DOI?**
No. Print a completed copy of the SILR for your records.
- Question 3: Can the school nurse change his/her name, email address and/or telephone number?**
Yes, the school nurse can make necessary changes to his/her name, email address or telephone number in the login page in My Account.
- Question 4: If I am in charge of two different schools in the same district, can I enter both of them in the same report?**
No, enter each school separately by its nine-digit AUN and four-digit school/branch number.
- Question 5: Can I enter first grade in the school report?**
No, you are required to report kindergarten, seventh and twelfth grade only.
- Question 6: Can I use the same password the previous nurse used?**
No, your password should be kept confidential. Never use anyone else's password. This is considered a security breach in the system. You should enter your own password and keep it in a safe place.
- Question 7: Should I send the green and white immunization cards to Department of Health?**
No, the green and white immunization cards are to be kept at the school where the student is enrolled.
- Question 8: My school has merged with another school; what nine-digit AUN and four-digit school/branch number do I use?**
Contact your school administrator for the current nine-digit AUN and four-digit school/branch number.
- Question 9: My school just moved to a new location, and I cannot find it listed under my schools that I report.**
Contact your school administrator for the current nine-digit AUN and four-digit school/branch number. Follow the instructions for adding a school to the online SILR.

**Instructions for Annual School Immunization Law Report
(Reference and Screen Shots 2022-2023)**

IX. SILR Questions – Immunization Status:

Question 1: Does a student entering seventh grade require Tdap?

Yes, Tdap is required for entry into seventh grade.

Question 2: Will a Tdap dose given between ages 7 to 9 years satisfy the requirement for entry into seventh grade?

No, If a student between the ages 7 to 9 years received a Tdap dose as part of the catch up series another dose should be administered at ages 11 to 12 years. Although not preferred, Tdap given at age 10 is accepted for the adolescent dose.

Question 3: If a student age 7 years and older started the Td series late and received three doses, is the student considered up-to-date for 7th grade?

No, the student is not considered up-to-date for 7th grade. The first two doses in this series should be separated by at least four weeks, and the third dose given six to 12 months after the second dose. ACIP recommends that one of these doses (preferably the first) be administered as Tdap. An adolescent Tdap dose should then be administered at ages 11 to 12 years. The adolescent dose of Tdap, although not at the preferred timing, may be given at age 10.

Question 4: If a student received a third dose of polio vaccine at age 4 years of age or older and at least 6 months from the previous dose, do they need a 4th dose of polio vaccine?

No. Per the catch-up schedule of the ACIP of the Centers for Disease Control and Prevention (CDC), a fourth dose is not necessary if the third dose was administered at age 4 years or older and at least 6 months after the previous dose. The student is considered up-to-date and compliant.

Question 5: Where do we count the student who had the varicella disease (chickenpox) and one dose of vaccine?

The column labeled “Varicella had disease” is for a student who had chickenpox disease either naturally or as a breakthrough disease from vaccine. The next column “Varicella two doses” is for the student who had two doses of varicella vaccine. In this case, the child would be counted in the “Varicella had disease” column.

Question 6: What if a child had one dose of varicella vaccine and the medical provider indicates the child had shingles?

The child would be immune and would not need an additional dose of varicella. He/she would be marked in the box labeled “Varicella had disease,” because at some point in time, this child had a case of chickenpox in order to be diagnosed with shingles.

Question 7: If a child has one MMR vaccine and one measles vaccine, should the child be counted under the MMR 2 doses column?

No, he/she would be considered provisional, since they have not received the second required mumps dose. The student would need two MMR doses to be considered in compliance.

Question 8: What immunizations titers are not acceptable?

We do **not** accept titers for tetanus, diphtheria, polio and mumps.

Question 9: Johnnie is in kindergarten and has the following immunizations: four doses of DTaP, four doses of polio, two doses of MMR and two doses of Varicella but only two doses of hepatitis B with a medical plan for the last dose. How should I record this on the SILR?

You should count him up-to-date under DTaP, Polio, MMR and Varicella, BUT he will not be counted up-to-date under HepB. He will also be counted under (Column E) as provisional, since he does not have his last HepB immunization. A student can be counted as compliant for any immunization if he/she is up-to-date AND can also be counted as provisional if he/she does not have all the required doses listed for all the antigens.

Question 10: If a student has an exemption listed and is up-to-date on some of the antigens, should those antigens be counted in the SILR?

Yes, only count up-to-date antigens the student has received, along with the appropriate exemption.

**Instructions for Annual School Immunization Law Report
(Reference and Screen Shots 2022-2023)**

Question 11: If a child has all doses specified of a certain antigen, BUT one of the doses was administered more than four days before the recommended interval, would he/she still be considered up-to-date?

No, the immunizations must be given at the recommended minimum interval to be counted as up-to-date.
